

The Influence of Inert Gases on Inflammable Gaseous Mixtures (Classic Reprint)

By J K Clement

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Influence of Inert Gases on Inflammable Gaseous Mixtures When the Federal mine-accident investigations were begun it became evident that the mining engineers who investigated mine explosions and fires would have to guard against the possibility of secondary explosions; therefore they would have to know when an atmosphere that they might enter with breathing apparatus and electric safety lamps was explosive, or rapidly becoming so through the influx of methane or the formation of carbon monoxide. In certain instances it may be important to know, in some area in which ventilation has not been restored following an explosion, whether it is safe to admit searching parties or brattice men using oil safety lamps in case electric safety lamps are not available. In handling mine fires there are many times when it is important to know whether the atmosphere in the vicinity is inflammable or becoming so either through the decrease or, in some cases, increase of the ventilating current. The information given by the flame of a safety lamp in the complex gaseous mixtures following...
