## JAPAN SINKS (PAPERBACK)

Dover Publications Inc., United States, 2016. Paperback. Condition: New. Translation. Language: English . Brand New Book. A chillingly realistic work of science fiction. ? The New York Times. After dropping anchor for the night near a small island to the south of Japan, a crew of fishermen awaken to find that the island has vanished without a trace. An investigating scientist theorizes that the tiny island has succumbed to the same force that divided the Japanese archipelago from the mainland ? and that the disastrous shifting of a fault in the Japan Trench has placed the entire country in danger of being swallowed by the sea. Based on rigorous scientific speculation, Japan Sinks recounts a completely credible series of geological events. The story unfolds from multiple points of view, offering fascinating perspectives on the catastrophe s political, social, and psychological effects. Winner of the Mystery Writers of Japan Award and the Seiun Award, this prescient 1973 science-fiction novel foreshadowed the consequences of the 1995 Osaka-Kobe earthquake and the 2011 Tohoku earthquake and tsunami.
