A comprehensive medical scribe training manual for the medical scribe working in the emergency department. It is designed as both a stand-alone manual for those seeking to become or use a scribe, but also makes an excellent supplement to other training materials! The 4th Edition is building upon the feedback and experience since the 3rd Edition was published in 2012. It has been reorganized to clearly separate the fundamental from the more advanced topics. It also includes a new chapter titled The Basics of Emergency Medicine and a new section on relevant human anatomy for the medical scribe. Throughout this edition we have included several new images to reinforce topics from the text and we hope you enjoy the update! We offer an online training course corresponding to the handbook complete with audiovisual lectures, sample physician-patient interactions, and additional educational material.
