By Dr Srinivasan Kalyanaraman

Sarasvati Research Center, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Data mining.to identify profiles of culture, civilization with particular reference to technological advances during the Bronze Age. Ancient data mining systems of Indus writing techniques by metalworkers, Bharatam Janam include free-hand writing on metal surfaces with ferric oxide pigment. Data mining techniques of computer science widely used in Information Technology and Wi-Fi cellular/mobile communication system of the present day can be paralleled by the techniques demonstrated by artisans who created and used the Indus Script writing system on over 7000 inscriptions of ca. 3rd millennium BCE (5000 years ago). The techniques used on Indus Script could be of value to enhance data security through advanced cipher systems in cryptology. Resources of the earth which yield products of utilitarian and exchange value provided new forms of recording life activities of ancient Meluhha artisans of Bharatam. Products made such as s ankha bangles, s ankha libation vessels, s ankha trumpets and cakra or vajra (wheel or Vajra adorning the Soma Yaga Yupa as a ring) are sacred and become divine attributes in temples. Nataraja the cosmic dancer is adorned with a damaru...
