NEW YB-BASED SYSTEMS: FROM AN INTERMEDIATE-VALENT TO A MAGNETICALLY ORDERED STATE

Cuvillier Verlag Sep 2007, 2007. Taschenbuch. Condition: Neu. Neuware - Heavy-fermion systems belong to the group of strongly correlated electron systems and have attracted considerable attention because of their unusual physical behaviour at low temperatures. Only a few Yb-based heavy-fermion compounds were discovered and investigated in the past twenty years in comparison to Ce-based ones, because of the difficulty in synthesising Yb-compounds due to the high vapour pressure of Yb. In this thesis, we present the first thorough investigation of...
