CAMPING AND ITS RELATIONSHIP TO FOREST SOIL AND VEGETATION PROPERTIES IN SOUTH CAROLINA (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Camping and Its Relationship to Forest Soil and Vegetation Properties in South Carolina Camping is one of the most important recreational uses of the forests in South Carolina. It is an activity that is characterized by sustained, concentrated use which results in deterioration of soil and vegetation properties. This deterioration is a major problem for forest managers, for it reduces the quality of the recreational experience and results in higher maintenance costs. Camping use of the State s forests has doubled since 1970 and as more people utilize these environments for recreation, greater management problems can be expected to occur. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
