

Pure Products Volume 10

By Scientific Station for Products

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1914 Excerpt: . of the sense of smell which is at most exceedingly variable with the individual, a more rational method was adopted for the comparison of a number of hops. The method was based upon the presence of esters in the oil which are probably responsible for the characteristic fragrance of the hops. It is known that there is a variation in odor in certain volatile oils due to the quantity of esters present. Lavender oils of different origin are known to differ in agreeableness of odor due to the varying quantity of esters present. This is also true of peppermint oils. It is not therefore unlikely that volatile oils distilled from hops of different origin would also reveal varying quantities of esters and thus account for the variable odor of the hops. While it is agreed that there are other constituents in the oil of hops...
