NEW DIRECTIONS IN LEMUR STUDIES: [PROCEEDINGS OF THE XVIIITH CONGRESS OF THE INTERNATIONAL PRIMATOLOGICAL SOCIETY, HELD AUGUST 9-14, 1998, IN ANTANANARIVO, MADAGASCAR] (HARDBACK)

Springer Science+Business Media, United States, 1999. Hardback. Book Condition: New. 1999 ed.. 252 x 170 mm. Language: English . Brand New Book ***** Print on Demand *****.Over the course of the past decade, there has been an enormous augmentation in the amount of information available on the lemurs of Madagascar. These advances are closely coupled with an increase in the number of national and international researchers working on these animals. As a result, Madagascar has emerged as one of the principal sites of primatological studies in the world. Furthermore, the conservation community has a massive interest in the preservation of the natural habitats of the island, and lemurs serve as one of the symbols of this cause. Between 10 and 14 August 1998, the XVIIth International Primatology Society (IPS) Congress was held in Antananarivo, Madagascar. For a country that about a decade ago was largely closed to foreign visitors, this Congress constituted a massive event for the Malagasy scientific community and was assisted by about 550 primatologists from 35 different countries. Naturally, given the venue and context of the Congress, many of the presentations dealt with lemurs and covered a very wide breadth of subjects.
