Vanderbilt University Press. Paperback. Book Condition: New. Paperback. 218 pages. Dimensions: 8.9in. x 5.8in. x 0.7in. An Alternate Selection of These Book Clubs Book-of-the-Month Club Quality Paperback Books One Spirit Nurses Book Society The Good Cook Life-saving advice for doctors and patients--both those at risk of a first stroke and those who have already had a mini-stroke, the 1 risk factor facing survivors This book is written in the hope of preventing strokes, based on advice Dr. Spence has given to the more than 16,000 at-risk patients he has seen. It is divided into two sections -- What Your Doctor Can Do and What You Can Do. Quitting smoking, following a Mediterranean diet, taking appropriate drugs to reduce blood pressure, cholesterol, and blood clotting, and appropriate surgery for severely narrowed arteries in the neck can reduce stroke by as much as 75 percent in high-risk people. Especially among African Americans, but in anyone with blood pressure that is difficult to control, two simple blood tests (measuring renin and aldosterone) make all the difference to successful treatment. A Mediterranean diet will reduce stroke by nearly half in high-risk people. Dr. Spence provides a collection of gourmet anti-stroke recipes that he prepares for himself. Vitamin treatment with folic acid, B6, and B12 may prevent stroke by lowering levels of a new risk factor called homocysteine. Advanced imaging methods are improving management of arteries by providing feedback on the effectiveness of therapy. Transcranial Doppler embolus detection can identify, among patients with narrowing of the carotid arteries who do not yet have symptoms, the ones who are likely to benefit from surgery or stenting. This approach is the powerful medicine for stroke prevention that patients and their physicians need and will learn from this book. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
