

Writing for Computer Science 2014

By Justin Zobel

Springer London Ltd, United Kingdom, 2015. Paperback. Book Condition: New. 3rd Revised edition. 232 x 156 mm. Language: English . Brand New Book. All researchers need to write or speak about their work, and to have research that is worth presenting. Based on the author's decades of experience as a researcher and advisor, this third edition provides detailed guidance on writing and presentations and a comprehensive introduction to research methods, the how-to of being a successful scientist. Topics include: * Development of ideas into research questions; * How to find, read, evaluate and referee other research; * Design and evaluation of experiments and appropriate use of statistics; * Ethics, the principles of science and examples of science gone wrong. Much of the book is a step-by-step guide to effective communication, with advice on: * Writing style and editing; * Figures, graphs and tables; * Mathematics and algorithms; * Literature reviews and referees reports; * Structuring of arguments and results into papers and theses; * Writing of other professional documents; * Presentation of talks and posters. Written in an accessible style and including handy checklists and exercises, Writing for Computer Science is not only an introduction to the doing and...

Reviews

This ebook is really gripping and interesting. It is among the most remarkable pdf we have study. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Cleve Bogan**

Extensive information! Its this type of excellent study. I have read and i am sure that i will gonna go through yet again once more down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.
