Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Initial Report of Committee on Medical Care: March, 1943 In addition to the activities outlined in this report, the members of the Committee, both individually and collectively, served as consultants to consider a variety of State-wide medical care problems which were presented for immediate solution. These included the extension of the laboratory services of the State Department of Health, the need to replace almshouses by chronic disease hospitals and the plans for the construction of general hospitals to meet acutely increased demands. In addition, information on the distribution of physicians was provided the Procurement and Assignment Service, and data on other aspects of the general problem of medical care were made available to other governmental and private agencies. Several of these additional activities were the subjects of written reports, in other instances consultations were quite informal. The suggestion was made that the Committee extend its objectives and assignments to include any new problems in medical care which had developed as a result of the war. It was decided, however, that the scope of the problems to be studied by the Committee would be limited to that originally agreed upon. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
