

Introduction to Poly(aniline) Based Cathode for Rechargeable Batteries

By Dalui, Bharat Chandra

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | This book is basically for advanced level undergraduate engineering and science students. This book also helps the battery-scientists to understand the mechanism of polymer batteries. The polymer synthesis both chemically and electrochemically, doping, dedoping and their chareterzation are described elaborately. The charging -discharging behaviour and cyclic voltametry of rechargeable battery of assemlled Zinc-polyaniline and Lithium-polyaniline cells enrich the hands-on trainee. | Format: Paperback | Language/Sprache: english | 64 pp.

Reviews

Completely essential read through publication. It normally does not expense excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.
