Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. This book is aimed at the presentation of both classical and modern econometric techniques, and treatment with EIEWS software tool, a simple way to address the econometric work. Chapters begin with the presentation of concepts and appropriate theoretical notes, then to solve a variety of exercises that cover the concepts presented. It is not, therefore, make a complete theoretical presentation with demonstrations, but rather to collect most of the econometric concepts and illustrate them with practice through EIEWS software tool. In successive chapters develop the linear multiple regression model and all its problems (autocorrelation, heteroskedasticity, multicollinearity, normality, linearity, etc.), the discrete choice models, count, censored, truncated, sample selection, Logit, Probit, Tobit, etc. More advanced topics such as dynamic econometric models, stable models and structural change are also discussed. Finally delves into the theory of unit roots and cointegration models.
