

Solid biomass fuel in the Determination of chlorine (solid biomass fuels test methods and techniques of report)

Filesize: 2.57 MB

Reviews

This sort of ebook is every thing and made me hunting forward and a lot more. I have read through and i also am confident that i am going to going to go through once again once more in the foreseeable future. I discovered this publication from my dad and i encouraged this book to discover.

(Prof. Kip Spinka IV)

SOLID BIOMASS FUEL IN THE DETERMINATION OF CHLORINE (SOLID BIOMASS FUELS TEST METHODS AND TECHNIQUES OF REPORT)

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 78 Publisher: Coal Industry Pub. Date :2011-04-01 version 1. Solid biomass fuels in the Determination of chlorine. the research objectives are: to establish a solid biomass fuel for the accuracy and reliability characteristics Determination of chlorine. This project studied the oxygen bomb combustion method. Aldrin burning method. direct extraction method aqueous solution. hydrolysis four kinds of high temperature combustion sample preparation method. choose high-temperature combustion hydrolysis of biomass fuels as a solid sample pre-treatment methods. Analysis and comparison of ion chromatography. titration of potassium thiocyanate and potentiometric titration of the merits and applicability of our laboratory. to Ag-AgCl potentiometric titration of solid biomass fuels as chlorine in the sample analysis. and determine the their test conditions. The method of chlorine determination results of precision assessment. repeatability limit: chlorine content of less than 0.5%. the repeatability limit $r = 0.010\%$. chlorine content greater than 0.5%. $r = 0.030\%$. The innovation of this project: proposed for the properties of solid biomass fuels Determination of chlorine - High temperature combustion of hydrolysis of a potentiometric titration. to fill the gap. This approach than the EU technical norms DD CEN / TS 15289-2006 methods necessary equipment and operating procedures are simple. fast measurement speed. measurement results are stable. high degree of automation; method precision than in the chlorine content of 0.1% is better than some EU standards. Solid biomass fuels in the Determination of chlorine. compiled by the history of Ming. Contents: 1 2 research purposes and significance of domestic and foreign research profile and research content problems 3 3.1 test sample pre-treatment method of 3.2 pairs of samples after pre-treatment method for accurate determination of the study 4 test results and...
