

Water-Supply Papers, 1913: Nos. 257-260 (Classic Reprint) (Paperback)

By United States Geological Survey

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Water-Supply Papers, 1913: Nos. 257-260 The driller deals with rocks as well as with tools, and to be successful he must understand the character and attitude of the rocks as well as the manipulation of the tools. As by far the most common object of well drilling is to obtain water, oil, or gas, this report deals with the occurrence of these products and thus meets the desire among drillers for information that will enable them to select well sites with as definite an idea as possible of the rock formations that may be encountered. The report does not, however, take up the geologic relation of ore deposits and the methods of ore prospecting with drills.
