

Nondeterminism in Algebraic Specifications and Algebraic Programs (Paperback)

Filesize: 8.96 MB

Reviews

These sorts of pdf is the greatest pdf available. It really is written in simple words and never difficult to understand. I am just very easily could get a delight of studying a written ebook.

(Mr. Allen Cassin)

NONDETERMINISM IN ALGEBRAIC SPECIFICATIONS AND ALGEBRAIC PROGRAMS (PAPERBACK)**DOWNLOAD**

To save **Nondeterminism in Algebraic Specifications and Algebraic Programs (Paperback)** eBook, remember to click the button listed below and save the file or gain access to additional information which might be have conjunction with NONDETERMINISM IN ALGEBRAIC SPECIFICATIONS AND ALGEBRAIC PROGRAMS (PAPERBACK) ebook.

Birkhauser, 2012. Paperback. Condition: New. Softcover Reprint of the Origi ed.. Language: English . Brand New Book ***** Print on Demand *****.Algebraic specification, nondeterminism and term rewriting are three active research areas aiming at concepts for the abstract description of software systems: Algebraic specifications are well-suited for describing data structures and sequential software systems in an abstract way. Term rewriting methods are used in many prototyping systems and form the basis for executing specifications. Nondeterminism plays a major role in formal language theory; in programming it serves for delaying design decisions in program development and occurs in a natural way in formalisations of distributed processes. Heinrich Hussmann presents an elegant extension of equational specification and term rewriting to include nondeterminism. Based on a clean modeltheoretic semantics he considers term rewriting systems without confluence restrictions as a specification language and shows that fundamental properties such as the existence of initial models or the soundness and completeness of narrowing, the basic mechanism for executing equational specifications, can be extended to nondeterministic computations. The work of Heinrich Hussmann is an excellent contribution to Algebraic Programming; it gives a framework that admits a direct approach to program verification, is suitable for describing concurrent and distributed processes, and it can be executed as fast as Prolog.
