Vintage. Paperback. Condition: New. 400 pages. In this original, far-reaching, and timely book, Justice Stephen Breyer examines the work of the Supreme Court of the United States in an increasingly interconnected world, a world in which all sorts of activity, both public and private from the conduct of national security policy to the conduct of international trade obliges the Court to understand and consider circumstances beyond Americas borders. It is a world of instant communications, lightning-fast commerce, and shared problems (like public health threats and environmental degradation), and it is one in which the lives of Americans are routinely linked ever more pervasively to those of people in foreign lands. Indeed, at a moment when anyone may engage in direct transactions internationally for services previously bought and sold only locally (lodging, for instance, through online sites), it has become clear that, even in ordinary matters, judicial awareness can no longer stop at the waters edge. To trace how foreign considerations have come to inform the thinking of the Court, Justice Breyer begins with that area of the law in which they have always figured prominently: national security in its constitutional dimension how should the Court balance this imperative with others, chiefly the protection of basic liberties, in its review of presidential and congressional actions He goes on to show that as the world has grown steadily smaller, the Courts horizons have inevitably expanded: it has been obliged to consider a great many more matters that now cross borders. What is the geographical reach of an American statute concerning, say, securities fraud, antitrust violations, or copyright protections And in deciding such matters, can the Court interpret American laws so that they might work more efficiently with similar laws in other nations While Americans must necessarily determine their own laws through democratic process, increasingly, the smooth...
