Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Routes to Desert Watering Places in the Salton Sea Region, California The desert region of the United States forms a great triangle whose base, 800 miles long, is the Mexican border from the Peninsular Mountains, in southern California, to the mouth of Pecos River, in Texas, and whose apex is in north-central Oregon. The west side of this huge desert triangle is the mountain wall formed by the Peninsular Mountains, the Sierra Nevada, and the Cascade Range; the east or northeast side is a less definite line extending from north-central Oregon through Salt Lake City and Santa Fe to the mouth of Pecos River. (See P1. I.) It covers about 500,000 square miles, or very nearly one-sixth of the area of the United States. This region is by no means devoid of natural resources or human activity. It contains prosperous cities, fertile agricultural districts, forest-clad mountains, a large aggregate number of watering places, many rich mines, and an unknown wealth of mineral deposits. But the localities that have water supplies are widely separated oases in...
