

The Psychological Monographs: Symptomatological Differences Associated with Similar Cerebral Lesions in the Insane; Variations in Distribution of the Motor Centers (Classic Reprint) (Hardback)

Filesize: 7.89 MB

Reviews

Here is the finest publication we have read right up until now. It is actually written in easy words instead of difficult to understand. It has been written in a remarkably easy way in fact it is only right after I finished reading this book in which it basically changed me, modified the way I really believe.

(Prof. Vanessa Smitham V)

THE PSYCHOLOGICAL MONOGRAPHS: SYMPTOMATOLOGICAL DIFFERENCES ASSOCIATED WITH SIMILAR CEREBRAL LESIONS IN THE INSANE; VARIATIONS IN DISTRIBUTION OF THE MOTOR CENTERS (CLASSIC REPRINT) (HARDBACK)

Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Psychological Monographs: Symptomatological Differences Associated With Similar Cerebral Lesions in the Insane; Variations in Distribution of the Motor Centers The two articles which constitute the present monograph deal with the same general topic, the variations in function of corresponding parts of different brains. This matter has received scant attention in neurological literature, notwithstanding the fact that the anatomical variations have been extensively studied. The data recorded in the two articles point to a conclusion which helps to an understanding and to a conciliation of some apparent discrepancies in previous clinical and experimental studies of cerebral function. The theoretical discussion which is given is, however, not due solely to the work now presented, but in great part has been the result of previous personal observations and of various facts which have been recounted in clinico - and physiological - neurological literature. The experimental data of the second article were collected before the examination of the clinico-pathological data contained in the first article was begun. Many results of the experimental study could not be prepared for publication in the present article, and a number of duties prevented the earlier completion of the article as it now stands, but it is hoped that time will be found for the early presentation of the other collected facts which bear upon the same problem. Part of the first study was prepared for, but was not presented at, the conference on individual differences at Columbia University in celebration of the twenty-fifth anniversary of the professorship of J. McKeen Cattell. In the experimental part of the present work the author has had the assistance of and is under obligation to a number of former students, and of internes...
