WINNING AT WORK: AGAINST ALL ODDS

Wisdom Tree. Paperback. Book Condition: new. BRAND NEW, Winning at Work: Against All Odds, Ashwani Lohani, A compelling book written by an Indian bureaucrat with an impeccable track record. This book tells the tale of his successful struggle against the system and in the process enlightens the reader with some amazingly effective management mantras - love your men, develop passion at the workplace, adopt situational problem-solving, avoid the bug of indecision. This book is based on the firm belief that all a man has to do to win at work is to manage the 3 M's - men, money and material in a time-bound manner with a clear objective in mind. Once this happens, no odds are big enough to stop him from emerging as a winner. Since this book is born out of the author's own proactive and result oriented style management, it is very practical and takes the reader beyond the normal management theories. In fact, the author consistently implores the reader to question the system and think out of the box to create his or her own management style. A must read for all managers from the corporate world to the PSU's, this book reveals the inside story of working in the government machinery.
