Reviews

Unquestionably, this is the best work by any author. Better than ever, though I am quite late in starting to read this one. I realized this publication from my dad and I advised this PDF to find out.
(Nelson Zemlak)

CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 248 pages. Dimensions: 9.0in. x 6.0in. x 0.6in. Essential C Programming Skills--Made Easy! This book gives a good start and complete introduction for C Programming for Beginners. While reading this book it is fun and easy to read it. This book is best suitable for first time C readers, Covers all fast track topics of C for all Computer Science students and Professionals. This book is targeted toward those who have little or no programming experience or who might be picking up C as a second language By Best Selling Author Harry H Chaudhary. The book has been structured and written with a purpose: to get you productive as quickly as possible. I've used my experiences in writing applications with C and teaching C to create a book that I hope cuts through the fluff and teaches you what you need to know. All too often, authors fall into the trap of focusing on the technology rather than on the practical application of the technology. I've worked hard to keep this book focused on teaching you practical skills that you can apply immediately toward a development project. This book is divided into ten Chapters, each of which focuses on a different aspect of developing applications with C. These parts generally follow the flow of tasks you'll perform as you begin creating your own programs with C. I recommend that you read them in the order in which they appear. Using C, this book develops the concepts and theory of Building the Program Logic and Interfaces analysis, Exceptions, Delegates and Events and other important things in a gradual, step-by-step manner, proceeding from concrete examples to abstract principles. Standish covers a wide range of both traditional and contemporary software engineering...
