LEARNING COMPREHENSIBLE MODELS FOR ANALYSIS AND PREDICTIONS IN SCIENTIFIC DATABASES

Apprimus Wissenschaftsver Apr 2014, 2014. Taschenbuch Condition: Neu. Neuware - Efficient handling and analysis of experimental measurements is an essential part of research and development in a multitude of disciplines (e.g., engineering, chemistry, biology), since these contain information about the underlying processes. Researchers investigate processes by running experiments and gathering potentially a huge amount of data which is then to be evaluated. For environmental monitoring wireless sensor networks are used to collect data at spatially and temporally discrete positions. In..
